

CRC Industries NZ, Auckland NZ

I. Product Description

CRC Glass Cleaner's professional formula quickly and easily removes tough dirt and grime including grease, finger prints, bugs and smoke haze. It leaves glass sparkling and free from streaks and smears. *CRC Glass Cleaner's* special surfactants help prevent misting when used on a regular basis. It is also an ideal fixing lubricant for window seals.

CRC Glass Cleaner contains no CFC's and is guaranteed safe to use on glass, tinted windows, perspex, plexiglass, mirrors and marble bench tops.

CRC Glass Cleaner is ideal for domestic and commercial purposes.

II. Features & Benefits

- Professional formula
- Sparkling streak-free finish for all glass surfaces
- Contains no CFC's
- Quick and easy removal of tough dirt and grime including grease, finger prints, bugs and smoke haze
- Prevents misting when used on a regular basis
- Anti-static properties to keep surfaces dust-free
- Guaranteed safe on glass, tinted windows, perspex, plexiglass, mirrors, marble benchtops
- Available in 500ml Aerosol (foaming) or Trigger bottle.
- Made in NZ
- Domestic and commercial use

III. Application and Directions

- Shake aerosol can well before use.
- Apply light spray.
- Wipe total surface clean with a lint free cloth or paper towel.
- Use dry cloth to polish.
- For best results, change cloth or towel regularly.

Handy Tip: Use newspaper to clean glass – this gives streak-free results and assists with polishing!

IV. Typical Properties and Characteristics

Physical Properties:

VI. Special Precautions

Aerosol Cans:

Do not puncture, incinerate or store above 50 °C. Exposure to high temperatures may cause the can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

First Aid:

If in Eyes – Immediately hold the eyelids apart and flush the eye continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.

Refer to Material Safety Data Sheet for more details.
