Data Sheet

Product Information

Code: HL7033ST316

Description: GU10 ADJUSTABLE WALL

Suitability: Outdoor

IP Rating: IP54

Material / Colour: Stainless Steel 316

Operating Voltage: 240V AC

Lamp base: GU10

Lamp: LED-GU3W

Fitting size: 150MM H x 60mm dia

Base size: 78mm Dia

Directional spot, adjustable swivel

SCREWS ARE NOT STAINLESS AND WILL RUST IF THE SILICONE WASHER IS NOT INSTALLED UNDER THE DOME NUT WHICH FIXES THE BASE TO WALL.

INSTALLATION NOTES

When fixing outdoor fittings to a wall a bead of silicone is required around the base to maintain the IP rating of the product. This also applies to the holes around the fixing screws. All silicone and rubber washers and O'rings supplied with the fittings must be in place around the base and fixing screws when installing the product. If missing please contact your supplier for replacements prior to installing the product. Failure to install outdoor fittings correctly will void any warranty.

STAINLESS STEEL OUTDOOR LIGHT FITTINGS

All grades of stainless steel can discolour, tea stain and become greasy. Care is required to maintain the appearance of the product. Even the highest grade stainless steel used on boats requires maintenance to prevent deterioration.

As required the stainless steel should be cleaned with a non erosive cleaning product, Steel Kleen Ezi Wipes or 3M Stainless Steel Cleaner available from supermarkets for example. When cleaning follow the polish or brushing lines. Cleaning is required when residue or grime becomes visible on the fitting.
